

FORT LAUDERDALE, Fla.--(BUSINESS WIRE)--**USARAD Holdings Inc.** a leading US Joint Commission Accredited teleradiology and telemedicine solutions provider, including SecondOpinions.com its consumer division, is gaining international attention with its innovative and technologically advanced services. The industry pioneer is now partnering with General Hospital of Ningxia Medical University award winning hospital.

General Hospital of Ningxia Medical University is a first class 3,233 bed hospital and one of the largest in the northwestern region of China. The facility has the most advanced technology and a number of specialties and specialists performing some of the most complicated procedures available in the world. SecondOpinions.com will provide telemedicine and teleradiology services to the hospital and our U.S. trained specialists and subspecialists will share their expertise with doctors and students at the facility.

General Hospital of Ningxia Medical University which was named “One Hundred Top Quality Service Hospital” has appointed USARAD Holdings Inc. & SecondOpinions.com founder and CEO, Dr. Michael Yuz, as a distinguished expert of radiology at the hospital. “We are honored to have Dr. Yuz join our Team. His own expertise as well as expertise of his team and the unique service his company provides will benefit many of our patients and the community,” said Mr. Yinxue Yang President of General Hospital of Ningxia Medical University.

Dr. Yuz added, “We are honored to provide our unique and advanced telemedicine and teleradiology services to such a prestigious institution as the General Hospital of Ningxia Medical University. We look forward to bringing first class care to the people of China.”

SecondOpinions.com provides patients with expert opinions from specialists and subspecialists. Simply upload digital images (MRI, CT etc.) to a HIPAA regulated, secure, confidential platform and receive a report within hours. In addition, doctors in virtually every medical specialty are on standby to provide consultations via phone or video chat. Studies have shown obtaining a second opinion decreases medical errors, saves lives, and keeps healthcare costs down by preventing unnecessary surgeries and procedures. Second opinions also give patients the peace of mind they need and deserve.
